About Me

I'm a proactive and creative developer with strong communication skills and a deep commitment to continuous learning. I have experience in building backend systems and creating technical content using modern technologies like JavaScript, React Native, Laravel (PHP), and MySQL. I write clean and maintainable code and enjoy working in agile, multidisciplinary teams. I'm always looking for new challenges that help me grow and contribute positively to every project I join.

Experience

Back-End Developer – Educational Software Company (Mar. 2025 – Present)
Development of modules for school systems using **Laravel (PHP)** and **MySQL**. Creation of endpoints, SQL optimization and technical documentation for institutional projects.

Content Creator (2022 – Present)
Creation of programming classes and tutorials. Technical content production in Spanish, English, and Portuguese for YouTube and social media.

Teacher – Escuela Nueva Pompeya (2014 – Present)
Primary level teaching. Coordination of pedagogical projects and personalized student support.

Sales Assistant – Cheeky Indumentaria (2011 – 2012)
Customer service in a retail store. Cash register management and product restocking.

Customer Service – McDonald's (2008 – 2010)
Front counter service and complaint resolution. Teamwork under high demand.

Education

Instituto Superior de Estudios Técnicos
Application Programmer – Systems Analyst (2019 – 2021)

Instituto Pablo VI
Primary Education Teaching Degree (2008 – 2011)
