About Me

I am a proactive and creative developer with strong communication skills and a deep commitment to continuous learning. I have experience in backend development, building and documenting REST APIs using PHP (Laravel) and MySQL. I enjoy working in agile and multidisciplinary teams, and I'm committed to writing clean and maintainable code. I also create educational content in Spanish, English, and Portuguese for digital platforms. I'm always looking for new challenges that help me grow professionally and make a positive impact on the projects I'm involved in.

Experience

Back-End Developer – Educational Software Company (Mar 2025 – Present)
Development of backend modules for school systems using **Laravel (PHP)** and **MySQL**. API creation, SQL query optimization, and technical documentation for institutional projects.

Content Creator (2022 – Present)
Production of programming tutorials and classes. Technical content in Spanish, English, and Portuguese for YouTube and social media.

Teacher – Escuela Nueva Pompeya (2014 – Present)
Primary education teaching. Project coordination and personalized student support.

Sales Assistant – Cheeky Indumentaria (2011 – 2012)
Customer service, cashier management, and product restocking in a retail store.

Customer Service – McDonald's (2008 – 2010)
Counter service and complaint resolution. Fast-paced team environment.

Education

Instituto Superior de Estudios Técnicos
Application Developer – Systems Analyst (2019 – 2021)

Instituto Pablo VI
Primary School Teaching Degree (2008 – 2011)
